ABOUT ME

A full stack software developer familiar with a wide range of programming utilities and languages. I constantly push my innovative capabilities by engaging in solution driven projects. I have great experience with backend and frontend software development, ranging from development of database objects using sql/mysql, database administration, application development using PHP, HTML, CSS, Javascript and more. In addition to my technical abilities, I have five years of work experience which has shaped me to be an excellent communicator with advanced presentation creation and delivery skills. I am a collaborative team player with business solution mindset.

EXPERIENCE

Head core banking support

- Tajbank Bank Limited* (August 2021 – April 2023)
- Coordinate activities relating to the core banking.
 - Develop micro services to support the core banking and business.
